Will received his taste for property whilst at Northumbria University having graduated with a degree in Estate Management in 2015. During his degree, he took the opportunity to further his knowledge and interest in property by completing a placement year at Carter Towler in Leeds.

During this time, Will was involved predominantly in an agency role, tasked with disposing of a wide variety of leasehold and freehold properties. Involved from the commencement of bringing clients on board, to marketing, negotiating and agreeing terms, he capitalised on the autonomy he was given whilst building a real passion for agency.

Further to completing his degree, Will commenced work in a valuation role at Fox Lloyd Jones in Leeds. This gave him a solid foundation to understand property and market characteristics and patterns which impact upon the end realisation price or rental achieved. Will gained a wide variety of valuation experience ranging from prime high street retail units to large mixed asset portfolios and development appraisals.

Will joined Pudney Shuttleworth in January 2017, acquiring and disposing for clients in the In-Town retail and leisure sector. He is currently assisting clients including Legal and General, Land Securities and Evans of Leeds with their disposals whilst also working with various occupiers including Cofee Republic in an acquisition role. Further to this, he is involved in the asset management of various mixed use schemes including Xscape Castleford and The Light Leeds.

Will has recently moved into an apartment in Leeds city centre and is enjoying all the vibrancy and energy which Leeds has to offer! He is a keen footballer, skier and snowboarder as well as being a qualified lifeguard!
